

2018 International Conference on Artificial Intelligence and Software Engineering

May 26-28, 2018 | Chengdu, China

Submission deadline
January 15, 2018

<http://www.icaise.org>
Email: icaise@young.ac.cn
Tel: +86-28-87777577

Conference committees

• Honorary Chair

Dr. Zhang Jingzhong, Academician of Chinese Academy of Sciences, China

Prof. WANG Jun, (FIEEE, FIAPR) City University of Hong Kong, Hong Kong

• Conference Chairs

Dr. Wang Xiaoyu, Executive director of Sichuan Province Computer Society, China

Prof. Zhou Jiliu, President of Chengdu University of Information Technology, China

• Organizing Chair

Senior Engineer Song Changyuan, Secretary-General of Sichuan Province Computer Federation, China

• Program Committee Chairs

Prof. Vincenzo Piuri, IEEE Fellow, Università degli Studi di Milano, Italy

Prof. Qin Zhiguang, University of Electronic Science and Technology, China

Prof. Pan Wei, Southwest Jiaotong University, China

Sponsored by

Sichuan Province Computer Federation (<http://www.spcf.cn>) which established in 1989, is the provincial level of Sichuan Province. As an independent corporate organization, Sichuan Province Computer Federation is the core member of Sichuan Province Association of Science and Technology.

Conference Proceedings

Papers submitted will be peer-reviewed and the accepted papers will be collected in the Conference Proceedings, which is published by IEEE. The proceedings will be submitted and reviewed by the IEEE Xplore, **Ei Compendex**, and **Scopus** after the conference.

Technically Assisted by

Topics

- | | |
|---|--|
| Artificial Intelligence | Software Engineering |
| Intelligent information systems | Software Agent Technology |
| Intelligent data mining and farming | Middleware Design Techniques |
| Intelligent web-based business | Reliability & Modeling Analysis |
| Intelligent agents | e-Government Engineering |
| Intelligent networks | Modeling with UML |
| Intelligent databases | Cost Modeling and Analysis |
| Intelligent user interface | Component-Based Software Engineering |
| AI and evolutionary algorithms | Mobile/Wireless Computing |
| Intelligent tutoring systems | Computer & Software Engineering |
| Reasoning strategies | Communication Systems and Networks |
| Distributed AI algorithms and techniques | Parallel & Distributed Computing |
| Distributed AI systems and architectures | Technology Transfer |
| Neural networks and applications | Data Mining and Knowledge Recovery |
| Heuristic searching methods | Safety and Security Critical Software |
| Languages and programming techniques for AI | Business Process Reengineering & Science |
| Constraint-based reasoning and constraint programming | Artificial Intelligence Reengineering, Reverse Engineering |
| Intelligent information fusion | Design & Process Engineering & Science |
| Learning and adaptive sensor fusion | Design Patterns & Frameworks |
| Search and meta-heuristics | Distributed Intelligence Systems |

Things to do in Chengdu

1. Visit Giant Panda

Located just 6 miles (10 km) away from downtown Chengdu, this is the most convenient place for visitors to see the giant pandas at a close range.

2. Watch Magical Face Changing

3. Visit Leshan Giant Buddha

The Leshan Giant Buddha is a statue of Maitreya (a Bodhisattva usually represented as a very stout monk with a broad smile on his face and with his naked breast and paunch exposed to view) in sitting posture.

4. Visit Historic Sites

5. Visit Mount Qingcheng

6. Relish Chuan Cuisine
